This is why an interprofessional team approach to corticosteroid therapy and subsequent monitoring is necessary. Clinicians shall consider adverse effects and patients' underlying comorbidities before prescribing glucocorticoids and use glucocorticoids judiciously. The clinician should use the lowest possible dose for the shortest possible.

Patient education is vital in recognizing the adverse effects early. Children are particularly vulnerable to the side effects of corticosteroids, and parents need to understand the benefits and adverse effects of glucocorticoids. Pharmacists shall alert physicians about possible drug interactions, check dosing and duration, and answer patient questions. The nursing team can play a crucial role in communication with the patient, early detection of adverse effects.

Topics covered:

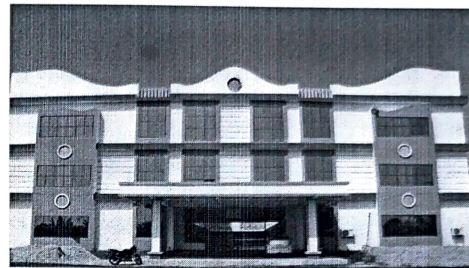

- * Glucocorticoids
- * Mineralocorticoid
- * Cardiac atrophy
- * Diastolic dysfunction
- * Corticosterone
- * Cortisol
- * Immunosuppressant drugs
- * Corticosteroid
- * Anti Inflammatory drugs
- * Protease inhibitor
- * Diuretics

ABOUT THE COLLEGE

Mother Teresa Pharmacy College was established in the year 2009 by MCM Educational society Sathupally which is serving the nation in the field of education since 2001.

The college was approved by PCI, Recognized by Government of Telangana state. Institute offering B.Pharmacy from 2009 and Master of Pharmacy with two specializations in Pharmaceutics 2011 and Pharmaceutical analysis from 2021.

The college has well furnished, e-teaching classrooms, a good collection of 6020 Books, 19 Printed journals, 52 e-journals in the library, Computer lab with high speed internet, Herbal garden, Separate hostel facility for girls and boys within the campus, a special play ground for games and sports, also a Canteen.

The college has a very good team of committed and qualified teaching faculty, out of them few doctorates and some are registered for Ph.D and carrying out their research activity with facilities available in the college. The college encourages R&D activities through its M. Pharm, B. Pharm projects. Apart from academics our college encourages students in co curricular activities.

The college has earned name and fame for its high academic excellence, disciplined, promoting the spiritual and social value which helps in the integrated growth of the students.

Objective of the program:

In several disorders, glucocorticoids are employed as anti-inflammatory, antiproliferative, and immunosuppressive medicines. Multiple systems' negative impacts. Paper focuses on death rate by this corticosteroid. Chances of problems is determined by the

dosage and duration of treatment Complications can also arise if Locals use anabolic steroids.

According to the literature, Glucocorticoids may play a role in hypertension development. heart failure, myocardial ischemia, and, according to certain investigations, stroke.

Steroid therapy is associated with the metabolic syndrome. Osteoporosis, myopathy, electrolyte, and metabolic abnormalities are all possible side effects of this treatment. However, determining how much of the consequences are due to the therapy and how much are due to the disease being treated is difficult.

It's also worth highlighting the negative effects of anabolic steroids, which are rarely used in therapy. impact on the production of mineralocorticoids and the mineralocorticoid receptor variables that control the size of blood vessels other illnesses that Osteoporosis, for example, may develop during treatment.

Electrolyte and metabolic problems, myopathy It is, nonetheless, it's impossible to say how much the difficulties. The challenges arise from the treatment itself, as well as the severity of the condition being treated. It is additionally It's worth emphasizing that the use of anabolic steroids has negative consequences. It is normally not included in therapy.

Outcome of the program

Glucocorticoids are widely used to manage many acute and chronic inflammatory disorders. The adverse effects of glucocorticoids are extensive and can involve many organ systems. While short-term use of corticosteroids is associated with mild side effects, long-term use can result in several severe adverse effects, some of which are irreversible.

Program Report

Name of the Program	A two week certificate course on "Common hazards of steroid use in hypertensives"
Type of Program	Certificate course
Date of Program	20.09.2021 to 04.10.2021
Details of Participants	45
Coordinator	Mr. B. Anil Kumar
Organizing Department	Dept of Pharmacology
Description	<p>Mother Teresa Pharmacy College organized A two week certificate course on "Common hazards of steroid use in hypertensives" by department of Dept of Pharmacology from 20.09.2021 to 04.10.2021, total number of students participated in this certificate program 45. This program was helpful to the students to fill the curriculum gap and for their overall growth. Topics covered in this course, Glucocorticoids, Diastolic dysfunction, Immunosuppressant drugs, Anti Inflammatory drugs etc.. The program was well organized by the Dept of Pharmacology, students were very happy about this program. Staff, Principal and Management were thanked the resource person. In future we will continue like this program.</p>

To

The Principal Sir

Mother Teresa Pharmacy College

Sathupally

Respected Sir

Sub:- Requesting for conducting two weeks certificate program. Reg..

I Ms. T. Anju, Assistant Professor Dept of Pharmaceutical analysis request you to provide necessary permission to conduct a two week certificate program on "Novel/Recent changes in fluoroquinolones". The said program will help the students to fill the curriculum gap also the students will exposure to present industrial needs and the students are able to identify the research opportunities in the said subject.

In view of students growth the said certificate program will help them for their overall growth. I assure you the said program will be held smoothly in the stipulated time i.e from 25.10.2021 to 08.11.2021.

Hence, I humble request you to provide necessary permissions to act as Co-ordinator for said program.

Thanking You Sir

ABOUT THE COLLEGE

Mother Teresa Pharmacy College was established in the year 2009 by MCM Educational society Sathupally which is serving the nation in the field of education since 2001.

The college was approved by PCI, Recognized by Government of Telangana state. Institute offering B.Pharmacy from 2009 and Master of Pharmacy with two specializations in Pharmaceutics 2011 and Pharmaceutical analysis from 2021.

The college has well furnished, e-teaching classrooms, a good collection of 6020 Books, 19 Printed journals, 52 e-journals in the library, Computer lab with high speed internet, Herbal garden, Separate hostel facility for girls and boys within the campus, a special play ground for games and sports, also a Canteen.

The college has a very good team of committed and qualified teaching faculty, out of them few doctorates and some are registered for Ph.D and carrying out their research activity with facilities available in the college. The college encourages R&D activities through its M. Pharm, B. Pharm projects. Apart from academics our college encourages students in co curricular activities.

The college has earned name and fame for its high academic excellence, disciplined, promoting the spiritual and social value which helps in the integrated growth of the students.

Objective of the program:

The fluoroquinolones are a family of broad spectrum, systemic antibacterial agents that have been used widely as therapy of respiratory and urinary tract infections. The emergence of more virulent and resistant strains of bacteria for drugs is considered the main problem associated with the therapeutic use of these drugs. This situation participated in designing new fluoroquinolone derivatives. Fluoroquinolone derivatives are of pivotal interest due to their admirable pharmacological and pharmacokinetic profiles. They also exhibit higher bioavailability, excellent tissue penetration and relatively low adverse and toxic effects.

Outcome of the program

Over the past years, several fluoroquinolones (FQs) were designed, synthesized and evaluated, giving rise to a number of FDA approved drugs. Recent advances and future perspectives of FQs agents as drugs in the field of chemotherapy, have guided to endeavour their anticancer activity. Number of studies examining the FQs agents with analgesic, antitubercular, antifungal, and antiviral activities were reported in the last few years. Due to their potential interventions the focus of the area of research is nowadays shifting towards novel fluoroquinolones.

Program Report

Name of the Program	A two week certificate program on "Novel/Recent changes in fluoroquinolones"
Type of Program	Certificate program
Date of Program	25.10.2021 to 08.11.2021
Details of Participants	46
Coordinator	Ms. T. Anju
Organizing Department	Dept of Pharmaceutical analysis
Description	<p>Mother Teresa Pharmacy College organized a two week certificate program on "Novel/Recent changes in fluoroquinolones" by department of Dept of Pharmaceutical analysis from 25.10.2021 to 08.11.2021, total number of students participated in this certificate program 45. This program was helpful to the students to fill the curriculum gap and for their overall growth. Topics covered in this course, classification of fluoroquinolones, SAR of fluoroquinolones, fluoroquinolone uses, ADR, etc.. The program was well organized by the Dept of Pharmaceutical analysis, students were very happy about this program. Staff, Principal and Management were thanked the resource person. In future we will continue like this program.</p>

Permission letter

Date: 22.11.2021

To

The Principal

Mother Teresa Pharmacy College

Sathupally

Respected Sir

Sub:- Requesting for conducting two weeks certificate program. Reg..

I Mrs. Md. Sajila Bhanu, Assistant Professor, Dept of Pharmaceutics request you to provide necessary permission to conduct a two week certificate program on "Computer aided drug designing for targeted drug delivery systems". The said program will help the students to fill the curriculum gap also the students will exposure to present industrial needs and the students are able to identify the research opportunities in the said subject.

In view of students growth the said certificate program will help them for their overall growth. I assure you the said program will be held smoothly in the stipulated time *i.e* from 29.11.2021 to 11.12.2021.

Hence, I humble request you to provide necessary permissions to act as Co-Ordinator for said program.

Thanking You Sir

Yours faithfully

Invitation letter

Date: 25.11.2021

To

Dr. B. Anil Kumar

Vikas College of Pharmacy

Visannapet

Respected Sir,

Sub:- Invitation for Resource person a two week certificate program. Reg..

We, Mother Teresa Pharmacy College, Sathupally were established in 2009 and a well recognized Pharmacy College in Khammam region and serving the society by producing budding pharmacists. In view of growth of students, we are conducting a two week certificate program on "Computer aided drug designing for targeted drug delivery systems" from 29.11.2021 to 11.12.2021.

We hereby inviting you as Resource person on 10.12.2021, we request you to accept our invitation which will be added advantage for the benefit of our student community.

A line of reply is highly appreciated.

Thanking You Sir

Yours sincerely

CADD research in the 1950s and 2000s. CADD methods are mathematical tools used to manipulate and quantify the properties of potential drug candidates, and they are implemented in a number of programs, both publicly and commercially available. Ligand-based drug design is one of the most used CADD techniques, which involves the design of drugs based on the properties of known ligands that bind to a specific target

Topics covered:

1. The key parameters involved in CADD for TDSS
2. Target identification
3. Release kinetics
4. pharmacokinetics
5. Targeting efficiency
6. Drug stability.
7. computational chemistry
8. Molecular modeling,
9. Molecular design
10. Rational drug design.

ABOUT THE COLLEGE

Mother Teresa Pharmacy College was established in the year 2009 by MCM Educational society Sathupally which is serving the nation in the field of education since 2001.

The college was approved by PCI, Recognized by Government of Telangana state. Institute offering B.Pharmacy from 2009 and Master of Pharmacy with two specializations in Pharmaceutics 2011 and Pharmaceutical analysis from 2021.

The college has well furnished, e-teaching classrooms, a good collection of 6020 Books, 19 Printed journals, 52 e-journals in the library, Computer lab with high speed internet, Herbal garden, Separate hostel facility for girls and boys within the campus, a special play ground for games and sports, also a Canteen.

The college has a very good team of committed and qualified teaching faculty, out of them few doctorates and some are registered for Ph.D and carrying out their research activity with facilities available in the college. The college encourages R&D activities through its M. Pharm, B. Pharm projects. Apart from academics our college encourages students in co curricular activities.

The college has earned name and fame for its high academic excellence, disciplined, promoting the spiritual and social value which helps in the integrated growth of the students.

Objective of the program:

The primary objective of CADD is to screen, optimize and evaluate the activity of the compound against the target. It forms the multi-disciplinary approach for both academic and major pharmaceutical companies for better efficacy with no/fewer side effects. The advancement in CADD is based on similarity, target identification, structure prediction, binding site/ cavity, validation, understanding the protein-ligand interaction along with screening vast set of compounds, grasping the molecular dynamics simulations based on physiological conditions, Tallying with ADMET properties, estimating biological activity using QSAR (Qualitative structure-based assessment relationship) which is required for the lead compound for better efficacy and selectivity.

Outcome of the program

Computer-Aided Drug Design (CADD) has become an essential tool for drug discovery and development. It involves the use of computer software to predict biological activity, pharmacological properties, and toxicity of potential drug compounds. Targeted drug delivery systems (TDDS) are designed to deliver drugs specifically to the affected site, reducing the side effects associated with traditional drug delivery methods. The use of CADD in TDDS allows for the development of drugs with improved efficacy and reduced toxicity. Different types of drug delivery vehicles such as polymeric micelles, liposomes, lipoprotein-based drug carriers, nanoparticle drug carriers, dendrimers, etc. are being used in TDDS. The history of CADD dates to the 1960s, with the development of faster computers and more sophisticated software tools leading to a rapid expansion of

Program Report

Name of the Program	A two week certificate program on "Computer aided drug designing for targeted drug delivery systems"
Type of Program	Certificate program
Date of Program	29.11.2021 to 11.12.2021
Details of Participants	44
Coordinator	Mrs. Md. Sajila Bhanu
Organizing Department	Dept of Pharmaceutics
Description	<p>Mother Teresa Pharmacy College organized a two week certificate program on "Computer aided drug designing for targeted drug delivery systems" by department of Dept of Pharmaceutics from 29.11.2021 to 11.12.2021, total number of students participated in this certificate program 44. This program was helpful to the students to fill the curriculum gap and for their overall growth. Topics covered in this course key parameters involved in CADD for TDDS, target identification, computational chemistry, molecular modeling etc.. The program was well organized by the Dept of Pharmaceutics, students were very happy about this program. Staff, Principal and Management were thanked the resource person. In future we will continue like this program.</p>

Respected Sir

Sub:- Requesting for conducting two weeks certificate course. Reg..

I Mrs. G. Manasa, Assistant Professor, Dept of Pharmaceutics request you to provide necessary permission to conduct a two week certificate course on "Viscoelasticity". The said program will help the students to fill the curriculum gap also the students will exposure to present industrial needs and the students are able to identify the research opportunities in the said subject.

In view of students growth the said certificate program will help them for their overall growth. I assure you the said program will be held smoothly in the stipulated time *i.e* from 06.12.2021 to 18.12.2021.

Hence, I humble request you to provide necessary permissions to act as Co-Ordinator for said program.

Thanking You Sir

ABOUT THE COLLEGE

Mother Teresa Pharmacy College was established in the year 2009 by MCM Educational society Sathupally which is serving the nation in the field of education since 2001.

The college was approved by PCI, Recognized by Government of Telangana state. Institute offering B.Pharmacy from 2009 and Master of Pharmacy with two specializations in Pharmaceutics 2011 and Pharmaceutical analysis from 2021.

The college has well furnished, e-teaching classrooms, a good collection of 6020 Books, 19 Printed journals, 52-e-journals in the library, Computer lab with high speed internet, Herbal garden, Separate hostel facility for girls and boys within the campus, a special play ground for games and sports, also a Canteen.

The college has a very good team of committed and qualified teaching faculty, out of them few doctorates and some are registered for Ph.D and carrying out their research activity with facilities available in the college. The college encourages R&D activities through its M. Pharm, B. Pharm projects. Apart from

academics our college encourages students in co curricular activities. The college has earned name and fame for its high academic excellence, disciplined, promoting the spiritual and social value which helps in the integrated growth of the students.

Objective of the program:

- In materials science and continuum mechanics, viscoelasticity is the property of materials that exhibit both viscous and elastic characteristics when undergoing deformation. -
- Recognize the nature of viscoelastic material
- Understanding the damping models of viscoelastic material
- Dynamics of structure with viscoelastic material

Outcome of the program

Depending on the type of material and its application viscosity material can be used to relieve stress and pain on the human body as well as to protect delicate component in various types of machines and equipment.

ABOUT THE COLLEGE

Mother Teresa Pharmacy College was established in the year 2009 by MCM Educational society Sathupally which is serving the nation in the field of education since 2001.

The college was approved by PCI, Recognized by Government of Telangana state. Institute offering B.Pharmacy from 2009 and Master of Pharmacy with two specializations in Pharmaceutics 2011 and Pharmaceutical analysis from 2021.

The college has well furnished, e-teaching classrooms, a good collection of 6020 Books, 19 Printed journals, 52 e-journals in the library, Computer lab with high speed internet, Herbal garden, Separate hostel facility for girls and boys within the campus, a special play ground for games and sports, also a Canteen.

The college has a very good team of committed and qualified teaching faculty, out of them few doctorates and some are registered for Ph.D and carrying out their research activity with facilities available in the college. The college encourages R&D activities through its M. Pharm, B. Pharm projects. Apart from academics our college encourages students in co curricular activities.

The college has earned name and fame for its high academic excellence, disciplined, promoting the spiritual and social value which helps in the integrated growth of the students.

Objective of the program:

Posology is the branch of Medical science that deals with the determination of appropriate dosages or doses of medications for individual patients or specific groups of patients. Its main objective is to ensure the safe and effective use of medications by determining the correct dosage, frequency, and duration of treatment. Therefore, it is to provide healthcare professionals with guidelines and principles for determining the right dose of a medication for each patient.

Outcome of the program

The term posology refers to the study of the dosages of medicines and their effects on the human body. Posology is to determine the correct dosage of medication for individuals, ensuring their safety and effectiveness in treatment. It helps healthcare professionals prescribe the right amount of medication based on different factors like age, weight and medical condition.

ABOUT THE COLLEGE

Mother Teresa Pharmacy College was established in the year 2009 by MCM Educational society Sathupally which is serving the nation in the field of education since 2001.

The college was approved by PCI, Recognized by Government of Telangana state. Institute offering B.Pharmacy from 2009 and Master of Pharmacy with two specializations in Pharmaceutics 2011 and Pharmaceutical analysis from 2021.

The college has well furnished, e-teaching classrooms, a good collection of 6020 Books, 19 Printed journals, 52 e-journals in the library. Computer lab with high speed internet, Herbal garden. Separate hostel facility for girls and boys within the campus, a special play ground for games and sports, also a Canteen.

The college has a very good team of committed and qualified teaching faculty, out of them few doctorates and some are registered for Ph.D and carrying out their research activity with facilities available in the college. The college encourages R&D activities through its M. Pharm, B. Pharm projects. Apart from academics our college encourages students in co curricular activities.

The college has earned name and fame for its high academic excellence, disciplined, promoting the spiritual and social value which helps in the integrated growth of the students.

Objective of the program:

- In this step the researcher has to understand the problem thoroughly and rephrasing the same into meaningful terms from an analytical point of view.
- Let's say there is a problem called COVID-19 the researcher want to do research on this. Hence he should first understand the problem (COVID-19) thoroughly and has into meaningful terms .
- Once the problem is formulated the next step is extensive literature survey connected with the problem.
- For this purpose the abstracting and indexing journal and published or unpublished bibliographies are the first place to go to.
- Academic journals conference proceedings government reports , books etc, must be tapped depending on the nature of the problem.

Outcomes of the Program :

- A good library will be a great help to the researcher at this page
- After extensive literature survey, researcher should state in clear terms the working hypothesis or hypotheses.
- Working hypothesis is tentative assumption made in order to draw out and test it's logical or empirical consequences.
- Hypothesis should be very specific and limited to the piece of research in hand because it has to be tested.
- He role of the hypothesis is to guide the researcher by delimiting the area of research and to keep him on the right track.

ABOUT THE COLLEGE

Mother Teresa Pharmacy College was established in the year 2009 by MCM Educational society Sathupally which is serving the nation in the field of education since 2001.

The college was approved by PCI, Recognized by Government of Telangana state. Institute offering B.Pharmacy from 2009 and Master of Pharmacy with two specializations in Pharmaceutics 2011 and Pharmaceutical analysis from 2021.

The college has well furnished, e-teaching classrooms, a good collection of 6020 Books, 19 Printed journals, 52 e-journals in the library, Computer lab with high speed internet, Herbal garden, Separate hostel facility for girls and boys within the campus, a special play ground for games and sports, also a Canteen.

The college has a very good team of committed and qualified teaching faculty, out of them few doctorates and some are registered for Ph.D and carrying out their research activity with facilities available in the college. The college encourages R&D activities through its M. Pharm, B. Pharm projects. Apart from academics our college encourages students in co curricular activities.

The college has earned name and fame for its high academic excellence, disciplined, promoting the spiritual and social value which helps in the integrated growth of the students.

cGMP guidelines:

CGMP refers to the Current Good Manufacturing Practice regulations enforced by the FDA. CGMP provides for systems that assure proper design, monitoring, and control of manufacturing processes and facilities.

Put simply, to follow cGMP a company must have: Facilities that are kept in good condition; Equipment that is carefully maintained and calibrated; Employees who are qualified and fully trained and; Operating procedures that are reliable and reproducible.

cGMP applies to facilities and buildings, production, equipment, process controls, laboratory controls, packaging, and labeling, and returned or salvaged drug products.

Objectives:

The CGMP regulations for drugs contain minimum requirements for the methods, facilities, and controls used in manufacturing, processing, and packing of a drug product. The regulations make sure that a product is safe for use, and that it has the ingredients and strength it claims to have. CGMP provides for systems that assure proper design, monitoring, and control of manufacturing processes and facilities. Adherence to the CGMP regulations assures the identity, strength, quality, and purity of drug products by requiring that manufacturers of medications adequately control manufacturing operations. Good Manufacturing Practices (GMP) is a comprehensive manufacturing system that ensures product consistency and quality by addressing 5 key components: products, people, processes, procedures, and premises.
