Seminar on Legal Matters: Structure, IP, Copyright, Patents

The Department of Pharmacy organised One Day seminar on Legal Matters: Structure, IP, Copyright, Patents on 18th Apr 2022. The resource person for the sessions was Dr. Visal Kutchu, Senior Associate Prof, Vignana Jyothi institute of Management Studies.

The main purpose of intellectual property law is to encourage the creation of a wide variety of intellectual goods. Intellectual property rights refers to the general term for the assignment of property rights through patents, copyrights and trademarks. These property rights allow the holder to exercise a monopoly on the use of the item for a specified period. Intellectual Property plays a key role in gaining advantage for achieving higher economic growth in a market driven economy. The thin line between to copy or not to copy and 'Patent Law and Competition Law: A Complementary yet Tense Relationship'. The experts appreciated the thought-provoking presentations delivered by the students, and the eminent guests also added their comments in support of the topics presented. 56 students participated in the seminar.

“Seminar on Research Design and Measurement”

The Department of Pharmacy organised One Day seminar on Research Design and Measurement on 14th Mar 2022. The resource person for the sessions was B. Padma Narayan Associate Professor, GITAM school of business, Visakhapatnam, AP.

The speaker specially focused on conceptualizing research design, and collecting information from target groups. The speaker rightly raised a relevant question before the participants such as “How much they are well versed with the required knowledge of research design involves?” The discussion evoked a lot of questions among participants. Having explained what a research design is she further discussed its subdivisions in the form of Descriptive, Exploratory and Experimental Research Designs. The speaker explained research design with research based evidence. Participants were also provided with opportunities to respond to each other’s queries. This question answer session in fact enabled clarifying some of the misunderstandings of various methodological issues in designing a research, and the session was continued with activity for researchers. 53 students participated in this seminar.

Seminar on Intellectual Property Rights: Distinctive Perspectives

The Department of Pharmacy organised One Day seminar on Intellectual Property Rights: Distinctive Perspectives on 21th Feb 2022. The resource person for the sessions was Prof. K. Raji Reddy, Professor in dept Commerce and Management, Kakatiya University.

The resource person gave a brief introduction on IPR and explained the various related terms such as copyrights, patents etc. Intellectual property is a category of property that includes intangible creations of the human intellect, and primarily encompasses copyrights, patents, and trademarks. It also includes other types of rights, such as trade secrets, publicity rights, moral rights, and rights against unfair competition. Artistic works like music and literature, as well as some discoveries, inventions, words, phrases, symbols, and designs can all be protected as intellectual property. Sir gave a wonderful seminar and shared his life experiences with the students which were taken warmly by them. The main purpose of intellectual property law is to encourage the creation of a wide variety of intellectual goods. Intellectual property rights refer to the general term for the assignment of property rights through patents, copyrights and trademarks. These property rights allow the holder to exercise a monopoly on the use of the item for a specified period. 53 students participated and gained knowledge in this seminar.

Seminar on Entrepreneurship Development

The Department of Pharmacy organised One Day seminar on Entrepreneurship Development on 29th Jan 2022. The resource person for the sessions was Professor Merry Jessica, Professor in the school of Management studies in University of Hyderabad.

One important element of this entrepreneurship development is the encouragement of faculty/student research driven entrepreneurship. Mother Teresa Pharmacy College is a proven leader in identifying and nurturing emerging technologies and accelerating their migration from the work desk/laboratory to the marketplace. Since the next wave of economic growth globally will be led by innovation and entrepreneurship, this would a key economic driver for our nation. Thus, it is the need of hour to develop trainers/mentors with adequate skills, knowledge and information in the area of entrepreneurship for developing a vibrant entrepreneurial ecosystem nationwide.

This seminar provided inputs on the process and practice of entrepreneurship development, communication and inter-personal skills, opportunity identification, business models, achievement motivation training, and inputs on resource and knowledge industries. There was an encouraging response from the entrepreneurs, and they found the seminar to be very useful for their future. They were given information about career growth by focal skill experts, and the expert interacted with the youth and solved their queries at the end of seminar. 53 students participated and gained knowledge in this seminar.

One Day seminar on Building Awareness on Intellectual Property Rights (IPR)

The Department of Pharmacy organized One Day seminar on **Building Awareness on Intellectual Property Rights (IPR)** on 13th November 2021. The resource person for the sessions was Dr. M. Sree Lakshmi, Working as Associate Professor in the Department of Business Management, Mahatma Gandhi University.

The primary objective of this seminar is to facilitate and support students, in raising awareness on IPR related issues in general and more specifically on educating them about the value and protection of IPR and its benefits to the economy. The specific objectives of the programme are to significantly raise the level of awareness and interest/ knowledge about IPR issues. The Resource Person enhance awareness about Intellectual Property Rights (IPRs) among students and also explains about the measurements for protecting their ideas and business strategies, she highlighted about Effective utilization of IPR tools by which would assist in technology up gradation and enhancing competitiveness.

The objectives of the workshop are to raise awareness on the issues of Intellectual property and their violations, to identify educational and social strategies to address the issue, to collect, share and develop innovative responses and best practices for elimination and prevention of violation of intellectual property rights, to give recommendations and concrete proposals for action for elimination and prevention of crime related with intellectual property and to discuss the emerging issues relating to intellectual property. The resource person discussed about the awareness of IPR and issues related to IPR to both UG and PG students.

Workshop on Intellectual Property Rights: Emerging Issues and Challenges

The Department of Pharmacy organised One Day Workshop on Intellectual Property Rights: Emerging Issues and Challenges on 27th Nov 2021. The resource person for the sessions was Dr. G. Syam Prasad, Professor & Head of Dept IT, NEC College, A.P.

Theme of the Workshop - IPR plays an important role in the Economic Growth and in today's modern world, are some of the most innovative, dynamic and highly advanced segments that drive economic growth. IPR thus plays an important role in value creation in advanced segments thereby fostering innovation. The resource person creates awareness on Intellectual Property Rights and Patents. He explains about the issues and challenges in protection and explores IPRs. He imparts the Hands-on training on Patent search technique and Patent specification drafting. Total 57 students are participated in the workshop.

Seminar on Creating Innovative Ecosystem for Sustainable Entrepreneurship

The Department of Pharmacy organized One Day seminar on **Creating Innovative Ecosystem for Sustainable Entrepreneurship** on 18th September 2021. The resource person for the sessions was Dr. BABU RAJENDRA PRASAD SURYADEVARA, Associate Professor and IQAC Co-ordinator, Department of Business Administration, P. B. Siddhartha College of Arts & Science. A.P.

There is enough and more thrust on seeking employment rather than on Entrepreneurship even though there is an ample opportunity for the later due to the opportunities available and the aid of technology. Seminar has added the challenge of employability and made it learned centered with Outcome Based Education on having done so, a need was felt among all the to create awareness and to disseminate resourceful inputs on critical aspects on, Skills, Employability and Entrepreneurship in their interaction with the students. Young minds should be trained, guided and directed towards achieving their life objective through dreams and fulfilment of their dreams through Entrepreneurship. To go along with this, a need was also felt to train our students on skill development aspects. 56 students participated in seminar.

“One day Seminar on Data Processing and Research Methodology”

The Department of Pharmacy organised One Day seminar on Data Processing and Research Methodology on 21th Aug 2021. The resource person for the sessions was Dr. P. Pattabhi Ram, Associate Professor & HOD, NEC, AP.

The speaker introduced participants, about the basic concepts used to handle SPSS software and briefed upon its utility along with a comparison with Ms Excel's Data. He also provided the conceptual knowledge about how to test hypothesis and parametric testing, Type I and Type II error in a brief. Speaker explains about a normal distribution curve and importance the x and y axis that it formed and invited examples from the participants and explained.

And also the resource person was planned to provide practical hands on Data Processing and Training of SPSS to the participants. All the sessions were conducted on the computer centre of by exercise in the practical based. The main objective of this session was to help research students in doing his research work with SPSS. The speaker provide training from the basic entry of data in excel to calculation of descriptive statistics, cross tabulation, checking normality, regression, correlation and to perform ANOVA in SPSS. Hands on experience on SPSS to calculate parametric and non parametric test gave the participants clarity and confidence. In the post lunch session the speaker exposed the participants to factor analysis and gave them hands on experience using example data provided. Total 55 students were participated and gained knowledge in this seminar.
