Report of an Event on “Company Specific Training Programme”

III, B. Pharmacy and M. Pharmacy Students participated in “company specific training program” organized by Training and Placement Cell on 26th October 2019.

Specific training program with trained career specialists can be particularly valuable because they can give you tips on what hiring professionals in your field may be looking for, ways you can prepare, how to handle your nerves, and best practices in following-up after an interview. Specific training program provide you with constructive feedback in a low-stress environment. No one is the perfect candidate, so mock interviews help you clarify responses to certain questions and help you work on areas where you may have weaknesses.

Specific training program will help to improve the candidates' ability to give balanced answers without any bias. Improve your confidence level: The candidate has to appear confident in front of the panel members. Take some Specific training program to avoid some common mistakes. Candidates can reduce their anxiety and stress by sitting for interviews. There are no consequences of not performing well during these interviews, thus, candidates can test their answers and get the necessary feedback. Unlike real interviews, candidates can redo or retake their interviews as well.

Specific training programs boost the confidence of candidates. Once candidates begin to perform well during practice interviews, they become confident of their abilities and skills. The results of this are projected during real interview sessions as well, allowing candidates to remain calm and composed under stress.

Report of an Event on “CRT Technical Training Programme”

The Department of Pharmacy and INVICTUS laboratories organized **CRT Technical Training Programme** on 14th December 2019. The CRT program drives the participants to introspect, hone up their corporate skills, and gain insights through guided interactive activities while gaining knowledge and self-confidence. This enables students to effectively navigate all stages of the hiring process.

Our placement cell plays a crucial role in locating job opportunities for undergraduates and postgraduates passing out from the college by keeping in touch with reputed firms and industrial establishments. This cell operates round the year to facilitate contacts between companies and graduates. Campus placement is also known as campus recruitment, this will happen when companies come to our college campus, conduct interviews, and hire candidates to work in their companies. Getting the best companies for the placement drive is the main job of our college. Our Placement Officer helps the students to identify employment options that match their career interests. We assist students in all aspects of the job search including resume writing, along with all the necessary interview techniques and job referrals. Also, we schedule and follow up on student interviews with prospective employers.

Technical training is all about the job, obtaining the necessary skills to do a job, adding new tools to enhance the job. Sometimes technical training is developed for new software or processes to increase efficiency. Technical skills are the abilities and knowledge needed to perform specific tasks. They are practical, and often relate to mechanical, information technology, mathematical, or scientific tasks. Some examples include coding, knowledge of programming languages, programs skills, mechanical equipment, or tools.

Report of an Event on "CAREER COUNSELLING"

On 20th January 2020 all the 3rd, 4th B. Pharmacy and M Pharmacy Students participated in the Career Counseling Programme organized by CLINOXY Solutions.

Career counseling is a process that helps individuals identify and explore career options, make informed decisions about their future, and develop strategies to achieve their goals. It can be helpful at any stage of life, but it is especially beneficial for young people who are just starting out in their careers.

Career counseling not only helps in making you a great personality, but it will help to make you a more organized and a better person by various modern methods. Helps in gaining the right skill. Career counseling helps you to gain focus which can truly reflect in our deeds & work.
