Report of an Event on "CRT Technical Training Programme"

The Department of Pharmacy and KP laboratories organized **CRT Technical Training Programme** on 26th October 2020. The CRT program drives the participants to introspect, hone up their corporate skills, and gain insights through guided interactive activities while gaining knowledge and self-confidence. This enables students to effectively navigate all stages of the hiring process.

Campus recruitment training CRT, also known as placement training: A set of training programs, to train college students and get them ready for job interviews, during or after their final year of college.

These training programs can be broadly divided into two areas.

- 1) Communication and soft skills
- 2) Quantitative aptitude and logical reasoning

These candidates are given a higher preference, and actively pursued by companies for pre-placement offers (ppo), or during main campus placement in the final year, and or even after.

While academic inputs prepare students thoroughly and intellectually, the work challenges that the student will find themselves in due course would require additional interpersonal and business skills that are not part of the regular curriculum in many institutions today. Moreover, expectations and responsibilities in the workplace are very different than those in college. There are unspoken nuances and social norms that many graduates are completely unaware of and adjusting to a professional environment can be extremely challenging and traumatic to a few. This transition is often a big adjustment for many graduates. Hence, companies look for candidates who have undergone placement training and display an understanding of these important skills.

Report of an Event on "MOCK Interviews"

IV B. Pharmacy and M. Pharmacy Students participated in a company oriented MOCK interviews" organized by Training and Placement Cell on 27th March 2021.

Mock interviews with trained career specialists can be particularly valuable because they can give you tips on what hiring professionals in your field may be looking for, ways you can prepare, how to handle your nerves, and best practices in following-up after an interview. Mock interviews provide you with constructive feedback in a low-stress environment. No one is the perfect candidate, so mock interviews help you clarify responses to certain questions and help you work on areas where you may have weaknesses.

Mocks interviews will help to improve the candidates' ability to give balanced answers without any bias. Improve your confidence level: The candidate has to appear confident in front of the panel members. Take some mock interviews to avoid some common mistakes. Candidates are able to reduce their anxiety and stress by sitting for mock interviews. There are no consequences of not performing well during these interviews, thus, candidates can test their answers and get the necessary feedback. Unlike real interviews, candidates can redo or retake their interviews as well.

Mock interviews boost the confidence of candidates. Once candidates begin to perform well during practice interviews, they become confident of their abilities and skills. The results of this are projected during real interview sessions as well, allowing candidates to remain calm and composed under stress.
